Int. J. Gynecol. Obstet., 1990, 32: 409—412
International Federation of Gynecology and Obstetrics

Subject Index

Volume 32

abdominal wall, gravid uterus, incisional hernia, 377
absent pulmonary valve, ultrasonography, fetal echocardiography, prenatal diagnosis, congenital heart disease, tetralogy of Fallot, 71
adnexitis, C-reactive protein, white bloood cell count, blood sedimentation rate, body temperature, laparoscopy, antibiotic treatment, 133
antibiotic treatment, adnexitis, C-reactive protein, white bloood cell count, blood sedimentation rate, body temperature, laparoscopy, 133
antibody to hepatitis B surface antigen, hepatitis B virus, hepatitis B vaccine, hepatitis B surface antigen, 353
arterio-venous fistula, uterus, lung, 157
asphyxia, fetal and neonatal mortality, obstetric care, oxytocin, maternal health care services, Caribbean, 117
atomic medicine, nuclear magnetic resonance, medical thermodynamics, instant magnetic resonance imaging and spectroscopy, in vitro fertilization, 199

birthweight, hemoglobin AS, hemoglobin AA, primigravidas, 331
blood sedimentation rate, adnexitis, C-reactive protein, white bloood cell count, body temperature, laparoscopy, antibiotic treatment, 133
body temperature, adnexitis, C-reactive protein, white bloood cell count, blood sedimentation rate, laparoscopy, antibiotic treatment, 133
breech presentation, infants >2000 g, case controlled study, protocol, 111

C-reactive protein, adnexitis, white bloood cell count, blood sedimentation rate, body temperature, laparoscopy, antibiotic treatment, 133
Caribbean, fetal and neonatal mortality, asphyxia, obstetric care, oxytocin, maternal health care services, 117
Caribbean, neonate, neurological morbidity, obstetrics, social conditions, 335
case controlled study, breech presentation, infants >2000 g, protocol, 111
cervical mucus, gestagens, effects on endometrium, pituitary, ovary, 95
choriocarcinoma, hydatidiform mole, trophoblastic disease, trophoblastic tumors, invasive mole, human chorionic gonadotropin, 359
chorionic villus sampling, placental abruption, complications, sample sizes, 29
clinical outcome, endometrioid carcinoma, fallopian tube, pathology, 163
clomiphene citrate, in vitro fertilization, human menopausal gonadotropins, immunoglobulins, factorial analysis, 53
CO_2 hysteroscopy, septum, laparoscopy, 43
complications, chorionic villus sampling, placental abruption, sample sizes, 29
complications of hysterectomy, obstetric hysterectomy, emergency obetetrics operations, uterine rupture, obstetric complications, 23
computers, obstetrics, medical records, 247
congenital heart disease, ultrasonography, fetal echocardiography, prenatal diagnosis, tetralogy of Fallot, absent pulmonary valve, 71
conservative management, premature rupture of membranes, digital examination, 19
copper, zinc, neonatal birthweight, fetal growth, correlation, 243
copper ions, lead ions, zinc ions, uterine activity, naproxen, $PGF_2\alpha$, 169
correlation, copper, zinc, neonatal birthweight, fetal growth, 243

definitive surgery in postpartum period, obstructive uropathy, pregnancy, percutaneous nephrostomy, 67
delayed pain, human endometrium, endometrial biopsy, luteal phase, 267
developing countries, uterine rupture, frequency, maternal mortality, fetal mortality, 223
diagnosis, endometrium, endometrial cancer, vaginal ultrasound, 35
digital examination, premature rupture of membranes, conservative management, 19

early abortion, prostaglandins, local anesthetic, morbidity, 269
ectopic pregnancy, schistosomiasis, pelvic inflammatory disease, 281
effects on endometrium, gestagens, pituitary, ovary, cervical mucus, 95
elective hospitalization, twin gestations, premature delivery, 325
emergency obetetrics operations, obstetric hysterectomy, uterine rupture, obstetric complications, complications of hysterectomy, 23
endometrial biopsy, delayed pain, human endometrium, luteal phase, 267
endometrial cancer, endometrium, vaginal ultrasound, diagnosis, 35
endometrial tuberculosis, short course chemotherapy, infertility, 75

endometrioid carcinoma, fallopian tube, pathology, clinical outcome, 163
endometriosis, GnRH antagonist, reproduction, in vitro fertilization, uterus myomatosus, 311
endometriosis, pelvic pain, endoscopy, laparoscopy, 261
endometrium, endometrial cancer, vaginal ultrasound, diagnosis, 35
endoscopy, pelvic pain, endometriosis, laparoscopy, 261

factorial analysis, in vitro fertilization, clomiphene citrate, human menopausal gonadotropins, immunoglobulins, 53
fallopian tube, endometrioid carcinoma, pathology, clinical outcome, 163
fetal, macrosomia, risks, outcome, management, 215
fetal amenia, fetal hydrops, fetal transfusion, fetal therapy, 153
fetal and neonatal mortality, asphyxia, obstetric care, oxytocin, maternal health care services, Caribbean, 117
fetal birthweight, umbilical cord entanglement, perinatal mortality, 15
fetal echocardiography, ultrasonography, prenatal diagnosis, congenital heart disease, tetralogy of Fallot, absent pulmonary valve, 71
fetal growth, copper, zinc, neonatal birthweight, correlation, 243
fetal hydrops, fetal transfusion, fetal amenia, fetal therapy, 153
fetal mortality, uterine rupture, frequency, maternal mortality, developing countries, 223
fetal therapy, fetal hydrops, fetal transfusion, fetal amenia, 153
fetal transfusion, fetal hydrops, fetal amenia, fetal therapy, 153
follicular growth, LH surge, ovulation, ovulation timing, ovulation induction, ovulatory parameters, 369
frequency, uterine rupture, maternal mortality, fetal mortality, developing countries, 223

gestagens, effects on endometrium, pituitary, ovary, cervical mucus, 95
gestaosis, hemoconcentration, hyperuricemia, intrauterine growth retardation, pre-eclampsia-eclampsia, 229
gestational trophoblastic disease, placental site trophoblastic tumor, trophoblastic pseudotumor, non-villous trophoblastic tumor, trophoblastic tumor of intermediate cells, immature ovarian teratoma, 275
GnRH antagonist, reproduction, in vitro fertilization, uterus myomatosus, endometriosis, 311
gravid uterus, incisional hernia, abdominal wall, 377

hemoconcentration, gestaosis, hyperuricemia, intrauterine growth retardation, pre-eclampsia-eclampsia, 229
hemoglobin AA, hemoglobin AS, birthweight, primigravidas, 331
hemoglobin AS, hemoglobin AA, birthweight, primigravidas, 331
hepatitis B surface antigen, hepatitis B virus, hepatitis B vaccine, antibody to hepatitis B surface antigen, 353
hepatitis B vaccine, hepatitis B virus, hepatitis B surface antigen, antibody to hepatitis B surface antigen, 353
hepatitis B virus, hepatitis B vaccine, hepatitis B surface antigen, antibody to hepatitis B surface antigen, 353
history, stress incontinence, reliability, 255
human chorionic gonadotropin, hydatidiform mole, trophoblastic disease, choriocarcinoma, trophoblastic tumors, invasive mole, 359
human endometrium, delayed pain, endometrial biopsy, luteal phase, 267
human menopausal gonadotropins, in vitro fertilization, clomiphene citrate, immunoglobulins, factorial analysis, 53
hyaline membrane disease, respiratory distress syndrome, prenatal steroids, preterm rupture of membranes, prolonged rupture of membranes, prematurity, 237
hydatidiform mole, trophoblastic disease, choriocarcinoma, trophoblastic tumors, invasive mole, human chorionic gonadotropin, 359
hypertension, pre-eclampsia, premenstrual tension syndrome, pregnancy, proteinuria, 123
hyperuricemia, gestaosis, hemoconcentration, intrauterine growth retardation, pre-eclampsia-eclampsia, 229
hysterectomy, ruptured uterus, scarred uterus, prolonged labor, perinatal mortality, maternal mortality, 207

immature ovarian teratoma, placental site trophoblastic tumor, gestational trophoblastic disease, trophoblastic pseudotumor, non-villous trophoblastic tumor, trophoblastic tumor of intermediate cells, 275
immunoglobulins, in vitro fertilization, clomiphene citrate, human menopausal gonadotropins, factorial analysis, 53
incisional hernia, gravid uterus, abdominal wall, 377
infants > 2000 g, breech presentation, case controlled study, protocol, 111
infant morbidity, teenage pregnancy, maternal morbidity, pregnancy complications, 7
infertility, endometrial tuberculosis, short course chemotherapy, 75
infertility, ovulation, LH-color test study, 141
instant magnetic resonance imaging and spectroscopy, nuclear magnetic resonance, atomic medicine, medical thermodynamics, in vitro fertilization, 199
intrauterine growth retardation, gestaosis, hemoconcentration, hyperuricemia, pre-eclampsia-eclampsia, 229
invasive mole, hydatidiform mole, trophoblastic disease, choriocarcinoma, trophoblastic tumors, human chorionic gonadotropin, 359
in vitro fertilization, clomiphene citrate, human menopausal gonadotropins, immunoglobulins, factorial analysis, 53
in vitro fertilization, GnRH antagonist, reproduction, uterus myomatosus, endometriosis, 311
in vitro fertilization, nuclear magnetic resonance, atomic medicine, medical thermodynamics, instant magnetic resonance imaging and spectroscopy, 199

labor dystocia, teratoma, sacrococcygeal teratoma, tumor-fetal, pregnancy, ultrasound diagnosis, 61
laparoscopy, adnexitis, C-reactive protein, white bloood cell count, blood sedimentation rate, body temperature, antibiotic treatment, 133
laparoscopy, CO_2 hysteroscopy, septum, 43

laparoscopy, pelvic pain, endoscopy, endometriosis, 261
laparoscopy, transvaginal cystotomy, 77
laparoscopy, tuberculosis, tubercle, ovary, tubes, uterus, 129
lead ions, zinc ions, copper ions, uterine activity, naproxen, $PGF_2\alpha$, 169
LH-color test study, infertility, ovulation, 141
LH surge, follicular growth, ovulation, ovulation timing, ovulation induction, ovulatory parameters, 369
local anesthetic, early abortion, prostaglandins, morbidity, 269
lung, arterio-venous fistula, uterus, 157
luteal phase, delayed pain, human endometrium, endometrial biopsy, 267
luteinizing hormone in urine, surge of urinary LH, measurement of urinary LH, 145

macrosomia, fetal, risks, outcome, management, 215
management, macrosomia, fetal, risks, outcome, 215
maternal health care services, fetal and neonatal mortality, asphyxia, obstetric care, oxytocin, Caribbean, 117
maternal morbidity, teenage pregnancy, pregnancy complications, infant morbidity, 7
maternal mortality, ruptured uterus, scarred uterus, prolonged labor, hysterectomy, perinatal mortality, 207
maternal mortality, uterine rupture, frequency, fetal mortality, developing countries, 223
measurement of urinary LH, luteinizing hormone in urine, surge of urinary LH, 145
medical records, obstetrics, computers, 247
medical thermodynamics, nuclear magnetic resonance, atomic medicine, instant magnetic resonance imaging and spectroscopy, in vitro fertilization, 199
morbidity, early abortion, prostaglandins, local anesthetic, 269

naproxen, lead ions, zinc ions, copper ions, uterine activity, $PGF_2\alpha$, 169
neonatal birthweight, copper, zinc, fetal growth, correlation, 243
neonate, neurological morbidity, obstetrics, social conditions, Caribbean, 335
neurological morbidity, neonate, obstetrics, social conditions, Caribbean, 335
non-villous trophoblastic tumor, placental site trophoblastic tumor, gestational trophoblastic disease, trophoblastic pseudotumor, trophoblastic tumor of intermediate cells, immature ovarian teratoma, 275
nuclear magnetic resonance, atomic medicine, medical thermodynamics, instant magnetic resonance imaging and spectroscopy, in vitro fertilization, 199

obstetrics, computers, medical records, 247
obstetrics, neonate, neurological morbidity, social conditions, Caribbean, 335
obstetrics hemorrhage, surgical approach, 345
obstetric care, fetal and neonatal mortality, asphyxia, oxytocin, maternal health care services, Caribbean, 117
obstetric complications, obstetric hysterectomy, emergency obetetrics operations, uterine rupture, complications of hysterectomy, 23
obstetric hysterectomy, emergency obetetrics operations, uterine rupture, obstetric complications, complications of hysterectomy, 23
obstructive uropathy, pregnancy, percutaneous nephrostomy, definitive surgery in postpartum period, 67
outcome, macrosomia, fetal, risks, management, 215
ovary, gestagens, effects on endometrium, pituitary, cervical mucus, 95
ovary, laparoscopy, tuberculosis, tubercle, tubes, uterus, 129
ovulation, follicular growth, LH surge, ovulation timing, ovulation induction, ovulatory parameters, 369
ovulation, infertility, LH-color test study, 141
ovulation induction, follicular growth, LH surge, ovulation, ovulation timing, ovulatory parameters, 369
ovulation induction, post-molar trophoblastic disease, 381
ovulation timing, follicular growth, LH surge, ovulation, ovulation induction, ovulatory parameters, 369
ovulatory parameters, follicular growth, LH surge, ovulation, ovulation timing, ovulation induction, 369
oxytocin, fetal and neonatal mortality, asphyxia, obstetric care, maternal health care services, Caribbean, 117

pathology, endometrioid carcinoma, fallopian tube, clinical outcome, 163
pelvic inflammatory disease, schistosomiasis, ectopic pregnancy, 281
pelvic pain, endoscopy, endometriosis, laparoscopy, 261
percutaneous nephrostomy, obstructive uropathy, pregnancy, definitive surgery in postpartum period, 67
perinatal mortality, ruptured uterus, scarred uterus, prolonged labor, hysterectomy, maternal mortality, 207
perinatal mortality, umbilical cord entanglement, fetal birthweight, 15
$PGF_2\alpha$, lead ions, zinc ions, copper ions, uterine activity, naproxen, 169
pituitary, gestagens, effects on endometrium, ovary, cervical mucus, 95
placental abruption, chorionic villus sampling, complications, sample sizes, 29
placental site trophoblastic tumor, gestational trophoblastic disease, trophoblastic pseudotumor, non-villous trophoblastic tumor, trophoblastic tumor of intermediate cells, immature ovarian teratoma, 275
post-molar trophoblastic disease, ovulation induction, 381
pre-eclampsia, hypertension, premenstrual tension syndrome, pregnancy, proteinuria, 123
pre-eclampsia-eclampsia, gestaosis, hemoconcentration, hyperuricemia, intrauterine growth retardation, 229
pregnancy, hypertension, pre-eclampsia, premenstrual tension syndrome, proteinuria, 123
pregnancy, obstructive uropathy, percutaneous nephrostomy, definitive surgery in postpartum period, 67
pregnancy, teratoma, sacrococcygeal teratoma, tumor-fetal, ultrasound diagnosis, labor dystocia, 61
pregnancy complications, teenage pregnancy, maternal morbidity, infant morbidity, 7
premature delivery, twin gestations, elective hospitalization, 325

premature rupture of membranes, conservative management, digital examination, 19
prematurity, respiratory distress syndrome, hyaline membrane disease, prenatal steroids, preterm rupture of membranes, prolonged rupture of membranes, 237
premenstrual tension syndrome, hypertension, pre-eclampsia, pregnancy, proteinuria, 123
prenatal diagnosis, ultrasonography, fetal echocardiography, congenital heart disease, tetralogy of Fallot, absent pulmonary valve, 71
prenatal steroids, respiratory distress syndrome, hyaline membrane disease, preterm rupture of membranes, prolonged rupture of membranes, prematurity, 237
preterm rupture of membranes, respiratory distress syndrome, hyaline membrane disease, prenatal steroids, prolonged rupture of membranes, prematurity, 237
previous cesarean section, vaginal delivery, selection criteria, 1
primigravidas, hemoglobin AS, hemoglobin AA, birthweight, 331
prolonged labor, ruptured uterus, scarred uterus, hysterectomy, perinatal mortality, maternal mortality, 207
prolonged rupture of membranes, respiratory distress syndrome, hyaline membrane disease, prenatal steroids, preterm rupture of membranes, prematurity, 237
prostaglandins, early abortion, local anesthetic, morbidity, 269
proteinuria, hypertension, pre-eclampsia, premenstrual tension syndrome, pregnancy, 123
protocol, breech presentation, infants > 2000 g, case controlled study, 111

reliability, history, stress incontinence, 255
reproduction, GnRH antagonist, in vitro fertilization, uterus myomatosus, endometriosis, 311
respiratory distress syndrome, hyaline membrane disease, prenatal steroids, preterm rupture of membranes, prolonged rupture of membranes, prematurity, 237
risks, macrosomia, fetal, outcome, management, 215
ruptured uterus, scarred uterus, prolonged labor, hysterectomy, perinatal mortality, maternal mortality, 207

sacrococcygeal teratoma, teratoma, tumor-fetal, pregnancy, ultrasound diagnosis, labor dystocia, 61
sample sizes, chorionic villus sampling, placental abruption, complications, 29
scarred uterus, ruptured uterus, prolonged labor, hysterectomy, perinatal mortality, maternal mortality, 207
schistosomiasis, ectopic pregnancy, pelvic inflammatory disease, 281
selection criteria, vaginal delivery, previous cesarean section, 1
septum, CO_2 hysteroscopy, laparoscopy, 43
short course chemotherapy, endometrial tuberculosis, infertility, 75
social conditions, neonate, neurological morbidity, obstetrics, Caribbean, 335
stress incontinence, history, reliability, 255
surge of urinary LH, luteinizing hormone in urine, measurement of urinary LH, 145
surgical approach, obstetrics hemorrhage, 345

teenage pregnancy, maternal morbidity, pregnancy complications, infant morbidity, 7
teratoma, sacrococcygeal teratoma, tumor-fetal, pregnancy, ultrasound diagnosis, labor dystocia, 61
tetralogy of Fallot, ultrasonography, fetal echocardiography, prenatal diagnosis, congenital heart disease, absent pulmonary valve, 71
transvaginal cystotomy, laparoscopy, 77
trophoblastic disease, hydatidiform mole, choriocarcinoma, trophoblastic tumors, invasive mole, human chorionic gonadotropin, 359
trophoblastic pseudotumor, placental site trophoblastic tumor, gestational trophoblastic disease, non-villous trophoblastic tumor, trophoblastic tumor of intermediate cells, immature ovarian teratoma, 275
trophoblastic tumors, hydatidiform mole, trophoblastic disease, choriocarcinoma, invasive mole, human chorionic gonadotropin, 359
trophoblastic tumor of intermediate cells, placental site trophoblastic tumor, gestational trophoblastic disease, trophoblastic pseudotumor, non-villous trophoblastic tumor, immature ovarian teratoma, 275
tubercle, laparoscopy, tuberculosis, ovary, tubes, uterus, 129
tuberculosis, laparoscopy, tubercle, ovary, tubes, uterus, 129
tubes, laparoscopy, tuberculosis, tubercle, ovary, uterus, 129
tumor-fetal, teratoma, sacrococcygeal teratoma, pregnancy, ultrasound diagnosis, labor dystocia, 61
twin gestations, premature delivery, elective hospitalization, 325

ultrasonography, fetal echocardiography, prenatal diagnosis, congenital heart disease, tetralogy of Fallot, absent pulmonary valve, 71
ultrasound diagnosis, teratoma, sacrococcygeal teratoma, tumor-fetal, pregnancy, labor dystocia, 61
umbilical cord entanglement, fetal birthweight, perinatal mortality, 15
uterine activity, lead ions, zinc ions, copper ions, naproxen, $PGF_2\alpha$, 169
uterine rupture, frequency, maternal mortality, fetal mortality, developing countries, 223
uterine rupture, obstetric hysterectomy, emergency obetetrics operations, obstetric complications, complications of hysterectomy, 23
uterus, arterio-venous fistula, lung, 157
uterus, laparoscopy, tuberculosis, tubercle, ovary, tubes, 129
uterus myomatosus, GnRH antagonist, reproduction, in vitro fertilization, endometriosis, 311

vaginal delivery, previous cesarean section, selection criteria, 1
vaginal ultrasound, endometrium, endometrial cancer, diagnosis, 35

white bloood cell count, adnexitis, C-reactive protein, blood sedimentation rate, body temperature, laparoscopy, antibiotic treatment, 133

zinc, copper, neonatal birthweight, fetal growth, correlation, 243
zinc ions, lead ions, copper ions, uterine activity, naproxen, $PGF_2\alpha$, 169
